

Designed for nursing care where spinal stability or specialised treatments are required.

The Lincoln is an exceptionally versatile 3-in-1 bathing solution that incorporates a hi-lo bath system, a changing table and a bathing/showering platform. Safe and simple to use, the hi-lo function allows the carer full access to the bather at a comfortable working height, without the risk of back strain. Perfect for paediatric or adult bathers, the integrated bathing platform and changing table come with a removable back-rest and an adjustable foot-rest that ensure an optimal bathing position.

Lightweight, ergonomic hand operated shower unit

Removable back-rest and foot-rest for added comfort

Integrated hi-lo controls for optimum working height adjustment

Bathing platform assists with bathing, showering, changing and drying

Integrated access panel for use with patient hoists

Simple and easy to use bath and shower controls
